We are an upstart record label looking to fund small projects (think singles and EPs initially) in Americana, alt-country, power pop, and indie rock. This is a slightly different model than the old recording industry. If you think you have promise and we should make a little investment in your music, drop us a line. Please include a link to your music or attach an mp3- it doesn't need to be a fleshed out demo.

Music we like: Neil Young, MMJ, Byrds, Stones, Band of Horses, Ryan Adams, Jenny Lewis, Neko Case, The Band, Jayhawks, Emmylou Harris, Fleet Foxes, Margot and the Nuclear So and So's, Decembrists, Jack White, Jayhawks, Counting Crows, Beach
