I have a 1989 Ford f250 that is a BEAST! This truck will do anything you want it to do and more! It has the powerful 351W v8 with headers and a automatic trans, and yes this is a 4x4 truck. It has a lift on it (not sure how big) but it is sitting on 32/11.5/15 with some decent tread. I also have 2 more set of rims (8 rims) that one pair are in really good condition. All around very strong truck that is ready for what ever. The motor was rebuilt and has around 40k on it. the odometer has rolled over and says 10k, so i am guessing it has 110k. Does need a little work but drives great!

The only reason i am getting rid of this truck is because i was going to make it a plow truck but plans have changed.

text or email only thanks
