

2000 Ford F (150 USD)

Location **Maine**
<https://www.genclassifieds.com/x-572182-z>

A 2000 Ford F-150 4x4 parts truck with small 4.6 liter v8 engine with 110,000 miles on it. The truck would not past inspection because of frame rust so I am selling it as a parts truck. The engine still runs great and the transmission was rebuilt last year and only has a couple of hundred miles on it. I paid over \$1600 for the rebuild. I am willing to sell the engine and transmission separately or together but you must have them removed. The body is in rough shape but there are many other parts on the truck. \$600 for the engine and \$1200 for the transmission, or \$2000 for the entire.
