

Temp Jobsite Superintendent (NOLA)

Location **Louisiana**
<https://www.genclassifieds.com/x-572185-z>

We are a general contractor based in Mid-City with a primary focus on government construction. Our projects typically range from \$100k to \$2M. We have a lot of work in NOLA and in areas within 1.5 hours away. We are generally staffed up but once in a while we need an extra person to watch a job for a few days. It would be great if we could find someone who is either retired or isn't looking for full-time work that would be willing to work a few days here and there for an hourly rate. The rate would be between \$15 and \$20 per hour depending on experience. Usually this person would be watching over just one or two subcontractors, interacting with the client, and also responsible for filling out various safety forms and daily reports. If you are prior military or have an OSHA 30 card, please mention that in your reply. If you are ok with short term travel to other states, please also mention.
