

Music Producersongwriter looking for RBSoulPopRock female singer

Location **New Jersey** https://www.genclassifieds.com/x-572465-z

Young songwriter/music producer is looking for talented female singer specialized in R&B/Soul/Rock/Pop style, to sing for original songs. Many songs to come, so if we work well together, there's a possibility to develop a long collaboration relationship.

My budget is low, but you WILL BE PAID, as showing my respect to your time and talent. Let me know how much you charge for singing one song, and I'll try to match your anticipation. Credits will be given for sure, future possible royalties will be shared. And after it's done, if you like the music, you can use the song for your own album, your website, wherever you want, as long as keep the songwriter's title to me.

Recording session will most probably take place in Manhattan (I can give you a ride if commute is hard for you), ideally within an hour. The only requirement is you prepare well before the session, so we can nail it in an hour. For a song less than 5 minutes, capable singers should be able to do this.

If interested, plz reply with your basic info, website/audio tracks and how much you charge, we'll discuss details later.

Thanks for your.
