

# Seeking Bandmates

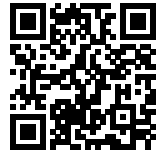

Location **New York**

Rhythm guitar/vocals seeks bandmates for a serious rock band. Regular practices, gigs, recording attempts, heated discussions about which is the best mid-90s alt-rock album.

I have a nice practice spot in midtown and a chunk of originals that are good. Check out some of my material in various states of audio quality at <https://soundcloud.com/songs-and-blood>

I'm looking to play with people who are approximately in their 20s and who want to be in a band enough to skip netflix a couple nights a week to make it.
