I'll pay you to use a feature of your Facebook account that you didn't even know existed. Read until the bottom to find out how.

Here's the deal.

I rely heavily on Facebook ads in my business to market my products. You know all those ads you see at the top of your newsfeed? I'm the guy who puts those there.

Whether you love these ads or hate them, enough people buy my products after clicking on them for me to stay in business.

Some people don't like these ads though, and they report them as spam. If enough people don't like an ad and report it as Spam, then Facebook shuts down the Ad Account that was used to create the ad.

Since my ads are being seen by thousands of people it doesn't take long before enough people get annoyed and my Facebook Ads accounts get shutdown.

In order for me to stay in business I have to constantly relaunch my ads on new Facebook Ads accounts.

When this business started, I reached out to all of my friends and family for help. I made sure they weren't planning on ever using their Facebook Ads account, then I paid them to use their account until it got shot down.

Now you're probably thinking, why don't I just make a bunch of new accounts myself?

The thing is that Facebook sometimes asks for verification to make sure that the account belongs to a real person. It has to be a real person that can scan their ID and send it to Facebook to verify that there is indeed a real person behind the account.

This worked out great for a while. I was happy because I was selling my products. My friends and family were happy because they made money for something they had been known to like. They got paid in just days and minutes of work.

It didn't take long though until I had asked all of my friends and family and had no one else to turn to.

That's why I need you.

I'll pay you \$40 dollars to use your Facebook Ad under the following conditions.

It **Make** **40** for having a **Facebook** account

Facebook account

1. You must have no interest in using your Facebook Ads account in the future. You won't be able to use it after it gets banned. **This won't affect your Facebook account usage at all.**

2. This has to be a real Facebook account, not some account you just created. I'll know the difference. It has to be a real profile with a real person behind it.

If that sounds like you, then here's how we proceed.

1. You send me an email stating your interest. Also include a link to your FB account, your zip code and your Skype ID.

2. We meet up on Skype for 5 minutes so that you can put me as an authorized user on your Ads account. ***You won't ever have to share your FB login/password with me.***

3. Facebook may require extra verification on your account at some point. If this happens inform me immediately.

After we get on Skype you'll get paid.

That's really all there is to it.

If you just want to make \$40, then we do this once and we're done.

If you want to make more than that, the opportunity exists too.

Like I said, I have a constant need for new FB accounts. Once you've gotten paid and seen that this is serious you can make money by getting your friends and Family involved as well.

I'll pay you \$40 for each working account that I can use. You can divide this up any way you choose with the person. 20/20 25/15, 30/10. Whatever you want to do.

If you can get me 15 accounts a week then I can bump up your earnings per account.

I'm always in need of new people who can help me with other aspects of the business as well. If you do well then it might lead to something else. Think of this as your first.
