359 pete for sale. Almost new rubber all the way around. T831 mud tires on drivers. Both rearends rebuilt a few years ago with just a few weeks of work on them in the fall. All the batteries are fairly new also. Brand new power steering pump just installed. The truck is exceptionally nice for its age and has a newer 855 cummins with 13 spd trans. Dual air ride seats,dual 130 gallon stainless fuel tanks,dual line wet kit with quick dump. The truck is ready to go to work and don't let the age scare you. I would not hesitate to take this truck anywhere. The buyer has first chance to purchase additional 8 nice all season tires on four new polished aluminum rims with steel inner rims,some of which are also new. Call me if interested. I will not answer emails or text.
