I have a mama cat who gave birth two four kittens June 8th I can no longer care for these animalsu , and my landlord is trying to evict me due to them being here and I didn't pay a deposit. The mama cat was a neighbors cat that she had left when she moved out and I took her in . Please someone take them and give them a good home otherwise I will be forced to take them to the apl and I really don't want to have to do that. My landlord gave me until Thursday evening to re home them. If your interested contact me via phone or text no emails please ! Thanks in!
