have a very lovely baby girl and boy for sale. They are very intelligent and fast at learning new skills especially when they feels sufficiently rewarded. Most monkeys do not make for good pets, but ours have been the exception. Personality-wise, they might not only be the best monkeys we have ever had - but the best we have ever seen. They have turned out to be very strong. They were one of the best eaters we have ever had (some babies dont take the bottle very well). Best of all, they are very sweet and have one of the most even temperaments of any monkeys we have ever raised. Even with pain from teething, they never cries or fusses and goes in and out of their boxes as they sees fit! These beautiful little babies likes to chew fingers, suck their thumbs and play with toys! they never cries when it is time for bed and doesnt tear things. they loves to play, give kisses, and snuggle up for a quick nap..For more pictures and info on our babies do get in touch with us by txting (818) 8*6*9-8*9*8*8.....txt for quick respond..
