Hello,

I have over 8 years experience in web & app development and would like to offer my services to you. I also specialize in Graphic Design, SEO, Advertising & Social Media.

I have experience making websites with many different platforms, such as Wordpress, Wix, Weebly, Squarespace, HTML, PHP etc. It all depends on your preference, or comes down to my recommendation depending on the complexity of your website.

My prices are very reasonable, I usually like to work around the companies budget, so you may either tell me your desired spending so we can work around that, or request a quote with a rough idea of what you want done and I will give you a quote. My turnaround time on average is 2 days to complete a website.

Let me know if you require more information or have anymore questions

Thanks for your time & I look forward to potentially working with you

Brandon
