

Lost diamond ring (Golden Gate Bridge)

Location California https://www.genclassifieds.com/x-582731-z

Hello

I lost my diamond ring on 19th July most likely at Golden Gate Bridge vista point (just at the end of the bridge before Alexander avenue). It was a band with 3 lines of diamonds.

If you have found it, PLEASE return it to me. I would really appreciate it. This ring is very dear to me marking an important event in my life. I can give you a cash reward. God bless you
