If I can prevent one other person from being abused and/or ripped off I would be happy.

Second pic is the 30min window he gave us to move my stuff out even though im paid until Aug 1st. I was moving out voluntarily the day prior and next day he changed locks and tried to keep my stuff which was my wifes bday.... he said" you can get your stuff on my time" and made me wait like a dog for 6 hours than gave me a 30min window to get my stuff because i wasnt going to be bullied into DOUBLE rent. Anyone a?
