

# Home Daycare Opening (Franklin)

Location

**Massachusetts**

<https://www.genclassifieds.com/x-583270-z>

I am an EEC licensed daycare provider and certified in first aid and CPR. I am also EEC certified for infant/toddler and preschool lead teacher for group daycare. I have a BA degree in Early Childhood Studies and have over 5 years experience in Daycare centers. I have room for 2 children (2 years old or older).

I can offer your child secure and loving care just as I do my own, and every child I have educated and cared for. I can also provide an age appropriate curriculum by doing a variety of projects with children especially science experiments and gardening. I include learning of literacy and math into projects to make it more interesting. I promote the original creativity of children in arts by providing materials and opportunities to present their imaginations without limitations. I have a beautiful yard and woods for children to explore. My yard is a natural playground and our home is a warm and secure place for your child to learn and grow. I can offer personalized care that you just can't find in large daycare centers. Please email me for more information.
