I'm a honest mechanic I'm not out here trying to get rich just make a honest living and support my family in the two yrs I've posted on craigslist I have never had a bad post and that's because I never leave a customer until they are happy and have a safe running car. My name is in every post and I have also had the same cell number the two yrs. I'm not going to say anything about another mechanic but I get a lot of calls where a customer has been done wrong And I believe in karma. All my customers numbers are saved in my cell you can contact any of them for a reference.

? I charge \$30 (payable when I arrive) to diagnose your car, but if I work on your car at that time I do not charge the diagnose fee only labor.

? I come to where your car is to save you a tow bill.

? I will also go to pic-a-part and/or pull-a-part and pull parts that are needed (with a small labor fee).

? Experienced with all make and model vehicles, anything from oil change, engine/transmission repairs or swaps, struts, shocks, wiring, audio, body work so on. I CAN FIX ANYTHING WRONG ON A

VEHICLE, can also repair dents and body damage but do not have a paint booth. I also do.
