

Tires with Rims (2156516 USD)

Good rubber still left on these studded snow tires. I'm selling them including the rims. I used them on my Ford Freestar, even though they were one size too small (225 is what is called for). If you need some good tires for next winter, now is the time to get 'em.

Call Jim at 939-2036 if you can use.
