Tarantino Landscaping  
 Residential Lawn Care and Landscaping Maintenance Specialists!!!  
 BEAT or MATCH any verifiable estimate!!!

Let Tarantino Landscaping residential Landscape Contractors create the garden and flower beds of your dreams with unique high-quality landscape services to enhance your outdoor living area. We use our experience and imagination to craft the perfect outdoor living space to complement your home.

We make your customized landscape design friendly by integrating native plants that flourish in our hot summers, rainy springs, and cool autumns. From a gorgeous perennial flower garden bed that is easy to maintain to a garden bed that changes with the seasons, we will work with you on a garden design that will enhance your landscape.

Garden beds can be the most definitive and rewarding part of your landscape. Simple or elaborate flower gardens are often divided into annual beds, perennial beds and mixed beds that are changed with the seasons. The most beautiful and productive gardens beds are the result of planning the size, shape and location.

Although a lush green lawn is by itself "eye catching" and fairly easy to maintain, it just is not complete without correspondingly beautiful flower beds. There simply isn't anything in nature that rivals the beauty

and pleasantness of flowers and what better than to concentrate your favorite ones within a few steps of your back and patio doors.

Let us use our Landscape Designing to your advantage to transform your very own landscape into a place of serenity and tranquility you do not want to do anything but enjoy it.

Our landscaping designers will work with you every step of the way! We look forward to building a relationship with you through your great landscaping!

If you live in the Metro West Area and require Landscaping or Groundskeeping services, call Tarantino Landscaping and Get a FREE quality service estimate. We will match or Beat any estimate!
