Hey all, I just moved to St Louis from Long Island, NY and would love to start a band that's a cross between Yo La Tengo, Pavement, Velvet Underground, Phish, Ween, Dmx and the Frozen sound track. If this sounds like something that you would consider absurd and next to impossible message me and we can eat a cup of pudding together and write a song about it. Looking for bass, drums, guitar and/or keys, all who might be willing to sing. I just wanna have some fun and craft really entertaining/interesting shows that people would wanna come back and see again and again.

Cheers,
