ASCAP songwriter and publisher seeks artists and producers in need of songs for upcoming album or side project. Must have recording budget or studio. I have a back catalog of 200 songs in the pop, rock, and country genre. No rap or hip hop.

My songs represent completed works, not unfinished music or lyrics. As a songwriter and publisher, I have secured many publishing and licensing deals, including major labels and publishers. As a manager and songplugger, I have secured indie releases and radio airplay for many songs and artists.

Must be equipped to track, mix, and master songs. Music and vocals. If I like your work, I'll be glad to shop the recordings around the industry. While full demos may suffice for some songs, "radio ready" recordings allow me to shop the song and artist to additional outlets--including film and television.

If you are still interested, please provide a hyperlink to your website. Thanks.
