

Computer hardware technician needed (Gillette, WY area)

Location

Wyoming

<https://www.genclassifieds.com/x-585719-z>

Good Afternoon--I am with NSC/SCS. We are a nationwide service provider for point of sale and thermal barcode equipment. We run service calls on a nationwide footprint and are always looking for contracted technical partners to run service events; just so we are on the same page this is not an offer of a full time position but this opportunity allows the candidate the ability to accept or decline service work on a per job basis. All jobs are priced based on job and start at \$60. These types of service events vary but some examples include swapping a register at a quick serve restaurant or repairing a receipt printer at a fast food restaurant. If you are interested in joining our network to be able to view and either accept or decline jobs please sign up at the link below:
