

Pneumatic Aircraft Oil Dispensing System on Cart USA (195 USD)

Location **Georgia**
<https://www.genclassifieds.com/x-586005-z>

Pneumatic Oil Pump Tank Dispenser.

This came from a closed aircraft maintenance facility that maintained KC-135, C-130 and Boeing 707 airplanes.

The tag for the unit says for Jet Engine Oil Dispensing. Consists of a reservoir tank (165 psi) approx. 30 Gallons, Magliner cart, AN 10 Micron replaceable filter, gauge valves and misc. hoses and fittings as shown.

You fill the tank with oil and it is dispensed after being run through the filter.

Could be used for it's original application or other aircraft, automotive or marine applications.

All components Made in USA.
