Hello, my name is Kevin. I am a Colorado native with 20 years experience in all aspects of tile, wood, vinyl and stone. At Flash Flooring and Tile, I specialize in custom homes, performing the highest quality job money can buy, using Schluter Systems. Schluter systems is a German engineered line of products designed specifically for the next-generation home remodel. Additionally, I use a proleveling system on all large format tiles popular today, eliminating lippage. Barrier free and steam showers, heated floors and custom shower pans made to fit any area. Counters and walls, I can do it all, even frame less glass. Punctuality is my promise. You will not be disappointed. All work is guaranteed, insured and done to your standards, not mine. Call or text today for a free in home estimate. Visit us at [hansentileandflooring.com](http://hansentileandflooring.com)
