Up for sale is a Blackheart Little Giant Half Stack amplifier. This amp is in great condition and sounds awesome. This amp features a 12AX7 preamp tube and a EL84 power tube. It has a 3 band EQ (Bass, Middle and Treble), a volume knob, a pentode/triode toggle Switch (to change the amp from 3 to 5 watts) and a power switch (on/off). Despite being a 5 watt amp, it can get very loud. The cabinet is a 1x12 and features an eminence speaker. I have recently upgraded to a new amp and as a result I am selling this one. I am asking \$200 or best offer. Thanks for!
