

Investors in medical marijuana dispensary (Alaska)

Location **Alaska**
<https://www.genclassifieds.com/x-586566-z>

Hello, we are trying to get the jump on starting up a medical marijuana dispensary(s). Primarily a baked goods (edibles) smoothies, coffees, Ghee, oils, etc. storefront. Some place nice and relaxing an environment you will want to spend time at relaxing. We are calling our vision Kush bakery and oils, and we hope to have one in each major city in Alaska.

You can read about our plan on our crowdfunding site and contribute there. This is an expensive undertaking, we are not talking about marijuana grown in the garage and then sold to you. In order to meet the needs of everyone including the immune suppressed, we need the product to be free of molds, mildew and e-coli and when the oils are extracted from the plant it has to be done without leaving behind harmful residue.

What we are offering in exchange for your contribution is: at the time of start-up, we turn your contribution into shares of the business and you receive a dividend from the profits. So basically you are an owner in your retail outlet and you provide yourself top of the line marijuana products.

CL will not let us put the crowdfunding site address in this post so you must write it out in your browser. Go to go fund me dot com slash zb9xes to view our platform. We are ideally looking for a maximum of 200 investors at \$1000 each, I know that is a lot but it is a million dollars a year plus business so your return will dwarf your.
