

# professional development education (Newark)

Location **Delaware**  
<https://www.genclassifieds.com/x-587017-z>

I am a certified parent educator and a facilitator/trainer for child care providers. I specialize in early child development (prenatal through age 18 encompassing neuroscience with the four domains of development). I specialize in Parent Child Interactive Therapy (PCIT), which is especially effective with children ages 2-7 who are showing emotional and behavioral difficulties. I am offering staff development as well as parent education. My workshops contribute to professional development hours and/or Parent education. Topics include, but are not limited to the following:

1. Understanding brain development and how it impacts children's behavior
2. Effective discipline
3. Positive reinforcement to improve behavior
4. Anger management for children
5. Stress management for teachers
6. Resources for teachers
7. Using time out effectively
8. How to talk so children will listen
9. Engaging parents
10. Working with difficult parents
11. Typical or troubled behavior in children--knowing the difference

Each of these topics can be broken into sub-topics which can fine tune many skill-sets. If you feel that

your staff and/or your parents have needs that must be met, but are not listed here, please feel free to contact me. This is and always will be more than just my business, it's a passion for you. The fee for training is \$50.00 for a 1 hour or \$100.00 for a 2 hour session. There will be \$40.00 for a useful resource. I will provide participants with a certificate of completion. This is a 100% guarantee. I am providing this service to ensure that you have a better understanding. I am available for clarification and additional questions via phone, email and if necessary, a follow-up visit. A certificate of completion will be provided to every participant. I would love to meet with you in person so that I can discuss the needs of your.
