

Restorations, Hot Rods, Customs, Repairs (Hampton, NH)

Location

Maine

<https://www.genclassifieds.com/x-588117-z>

Now is the time to get your classic or hot rod project in gear! Spring is here, so have your car ready for the season. From brake work to oil changes to rust repair to a fully built custom one of a kind hot rod, we can do it. Looking for a specific car? We can track it down for you. We specialize in pre-1974 hot rods, customs, muscle cars, and restorations, but we'll do many repairs on newer vehicles and we can customize pretty much anything. Labor rates at most shops run between \$65-100+/hr. If you schedule work now our special labor rates are only \$45 an hour for complete restoration projects and \$50 an hour for general maintenance!!! That's a lot of savings over the life of a build, or even a smaller repair. We have a low overhead so we can make this deal. If you wait too long to get those repairs done, you'll miss valuable cruising time. You want your car looking and running good for the season, so take advantage of our prices! We're setting up our schedule now for Fall and Winter, so if you have a build you want ready for next season, schedule it now and lock into the low rate! Check out our website at www.fortyonecustoms.com to learn more, or call. But please leave a message if I'm unable to.
