Is a sub par resume coupled with a weak network holding you back from the job or career you want?

I have been helping people perfect their resumes for over 12 years. I'm a bit of a freelancer and a board member of a non-profit. I know what recruiters and companies are looking for. Whether you're a seasoned professional in your industry, or entry level; I can help. I take a laid back fun approach and I hope you will too.
