Blows ice cold!!
And will cool big or multiple rooms, or even a whole floor/level!
Very nice for these hot and humid days.

This was the biggest AC that I would plug into a normal 115v house outlet and not trip circuit breakers or blow fuses.

Fedders(good name brand)

Think I paid over \$500

No picture because it is still in the original box, in storage, and it is heavy(quality), but I can take a picture of the box if you need, or just come look at it for yourself.

Might take (partial?) trades for 40 or 380 ammo, a shotgun, or a revolver, or a.
