

250,000,000 Loan Needed URGENT (USA)

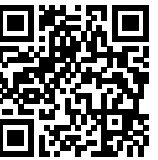

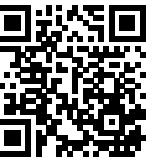

Location **Oklahoma**
<https://www.genclassifieds.com/x-588773-z>

\$250,000,000 Loan Needed, Installments Acceptable.

We are going to dominate, then take over the alarm industry. In less than three minutes, we can prove all of the present technology and services are outdated by 30 years. Technology such as alarms, silent alarms, cameras, cell phones, guns, and even security guards can't compete or get the expected results. Not even more police have been, or will be the answer. And that's why we've met with fierce resistance from the local government sectors.

\$50,000,000 for the first round used to initiate our advertising campaign. The follow up advertising at \$10,000,000 for the national advertising campaign. 25,000,000 in salaries and operating cost. 20,000,000 for our promotional product give away, and the remaining capital will be used to keep operations up and running for the next five years. Following the success of our immediate goals. A portion of the remaining balance will be used in the research and development of other human related activities that destroy families, and our communities prosperity.

We don't just have one product to bring to the market. We have four that will create an atmosphere of trust among the communities, it's citizens, and even our neighbors in other countries. This is not just another brilliant scam. We can show you our products, and we can show you what they will do. We will use the capital to put a stop to burglary, robbery, assault, and even murder!
