If possible I need a time frame for the music that special to be played. Example would be party is from 4-8pm and you want the other and a dance at 8pm. You can make an event that is 1 song that time or you ready with a list of songs after that time.

I have unlimited song requests. I have special songs for all requests and my job is to make sure those songs are heard to provide lots of enjoyment. (most only have 12-20 songs or unlimited for additional \$75)

The basic price for a licensed dj to do just a 3 hour event would cost \$300 with only a 12 song request up to 20 miles plus taxes.

I have 2 large PA speakers that are 1500 watts each, 1 large subwoofer that is 1000 watts, 2 lights that
