

## SitterPT Nanny (my home)

Location

Vermont

<https://www.genclassifieds.com/x-590012-z>

I am looking for a caring and reliable individual to take on care of my children, sometimes after school, and on occasional weekend day. I have been out of work for a while, and am looking to reenter the field, and do so I need someone to be able to be at home for my children during the summer and occasionally on a Saturday day shift so that I can be worry free about the care of my children and know that they are in their in environment where their comfortable, and have lots of things to do. We offer a pool, a big yard, wifi, free food, and many arts and crafts and fun things to do with our children, but we want it in our home. Care.com is ridiculous 20.00 an hour per child. yea ok., Offering a fair price. This would be a great summer time job for a older student, or someone looking to only work FT in the summer and PT in the fall when school starts. Please only serious inquiries, and one's with references, and own transportation.

Thanks Katie and
