Manager and publisher with industry contacts seeks solo artist or band for on-line collaboration. Emphasis on recording songs and promoting artists rather than booking and performing gigs. Must have recording equipment or home studio. Pop, rock, and country only.

I am a seasoned songwriter with many prior cuts and holds. Many songs have been performed in clubs and other venues. Received significant interest from major labels and publishers both here and abroad. Signed numerous publishing, licensing, and digital distribution deals during the past year.

In exchange for demos of my songs, I'll be glad to fully credit your work as the artist and producer. In addition, I'll be glad to pitch the demos to record labels, publishers, managers, producers, music supervisors, filmmakers, production libraries, etc.

Please attach an .mp3 file or hyperlink to your music, including a short bio. Serious inquiries only.
