MAMA DONNA'S CHILDCARE WAS ESTABLISHED IN THE YEAR 2000

MaMa Donna and Chris and our assistants Amber, & Courtney will welcome your child into our home. Our children learn best when they feel secure in their environment -- and the safest place in a child's world is his/her own home. We offer a home away from home comfortable, safe place, a stimulating, developmentally appropriate program that nurtures each child's unique way of learning.

Mixed-Age Groups In Family Child Care

Some parents see the concept of mixed-age groups in family child care as a challenge rather than a strength.

SOME QUESTIONS YOU MAY ASK:

- â€¢ How can you possibly care for children of those different ages?
- â€¢ How can you plan the day or organize activities for each age group?
- â€¢ Or won't the preschoolers get bored?

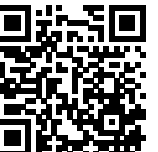

The answers to these very real concerns are what make high quality family child care so special. As experienced providers, Chris and I work very hard to plan activities to meet each child's individual needs. We plan ahead, allow time for our curriculum to emerge during the day, and

create ways for the children to learn through play. As providers, we educate ourselves about child development, child developmentally appropriate, and child behavior management. We have a goal to have a child during their different stages of growth.
