

BAYAREAPROCESSSERVERS.org (san jose downtown)

Location **California**
<https://www.genclassifieds.com/x-590334-z>

PROCESS SERVER * Small Claims, Divorce, Eviction, Judgment Collections, TRO's, Court Filings

You don't have to be an attorney to use our services. ...

Our standard service time is to make the first attempt on the next business day at no additional charge; we can go out on the same day, usually for a small additional charge.

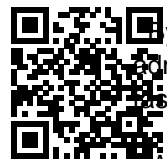

We can find out the addresses behind the Post Office Boxes and do other skip-trace services!

We cover the entire Bay Area and try to make it easy for you to get your papers to us and get your case moving forward. We also provide pick-up of your papers in most of the Bay Area, usually the same day, but almost always within one business day. If you want to be sure to have your papers picked up the same day, please call any time

We serve all legal papers, whether family law, small claims, larger state or federal cases, whatever, and can help you collect your judgment afterwards.

In most cases we file the proofs of service at no charge with the court clerk and send you the file-endorsed copy.

We can help you collect judgments. Our terms are very favorable. Unlike some collectors, we do not ask you to sign over your judgment to us. Assuming you know the location of the judgment debtor's assets, a bank account or employment information, we can levy on the bank or obtain a wage garnishment very quickly. Our fees for this service as well as the court and sheriff's fees can be added to your judgment. We also prepare, file and serve Orders of Examination and Abstracts of Judgment for the more difficult cases. We also do asset searches as part of our skip-tracing.

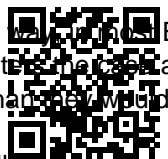

By the way, the Bay Area sheriff's office do not put up with the wage garnishments, bank levies and lien on bank accounts. They administer the cases and do not care if they, but they do not care if they, even in those counties where the sheriff's office do the serving, it is faster than they would.

We will stake out premises to catch an evasive person at an hourly cost that is lower than nearly every other firm in the Bay Area.

Our prices are fair and generally below or equal to our local competitors, especially considering our wide service area as well as the number of attempts we will make, usually five. We also file the proof of service for you at no additional charge.
