Recently moved to Herndon area and am looking for a reliable connection for flower or dabs. If you have tips on where I can look I'll take that too. I've asked around and I just can't find anyone who smokes or looking for new customers. I'm genuinely surprised it's been this hard to find a good connect with med quality grass. I smoke a lot so I'm a good customer able to pay cash weekly for a steady.
