

Help getting CDL (Wasilla)

Location Alaska https://www.genclassifieds.com/x-624510-z

I am looking to get a CDL. I currently have a class b and have a medical card and CDL permit already.

I need someone with a truck for a little practice and then to take the test at the DMV.

The truck needs to be able to pass a pre-trip inspection. I prefer a automatic (I already have a class B with manual so I don't need to test in a manual) but would consider anything.

Possibly a pickup truck with a gooseneck as long as the GVRR is in excess of 26,001 pounds. DOT numbers may be necessary.
