

Computer Service and Repair (,, USD)

Location **California**
<https://www.genclassifieds.com/x-624602-z>

I can come to your home/office and help you with repairing and optimizing your computer's performance. I'll sit with you and explain what I am doing with your computer as I progress with servicing it, so you'll know what exactly is happening.

Here are the main features :

- * Repairing Old computers & bringing them back to life. Why buy new computers if you don't really need 'em?
- * Help with buying new computers and upgrading old ones.
- * Custom-build new computers within your budget.
- * Cleaning up junk programs you never use, Spyware, Virus and all kinds of stuff that clog your systems.
- * Recovering lost data. Back up your data. Burn them to CDs/DVDs - So you never lose them.
- * Reinstalling Windows & Linux Operating systems & Office programs. Linux is great!
- * Printer / Scanner Issues.
- * General computer service like organizing your files, CD / DVD Burning, Photo transfer from Digital Camera, to name a few.

* General computer service like organizing your files, CD / DVD Burning, Photo transfer from Digital Camera, to name a few.
