

# Private Security Needed for VIP Only Burning Man Camp (oakland west)

Location **California**  
<https://www.genclassifieds.com/x-624619-z>

Due to the changing climate within the Burning Man community, and the growing distrust of all-inclusive experience based camps, we are seeking additional security for our luxury burning man camp for this year.

Duties will include:

- Proper recognition and respect of VIPs
- Ability to handle "hippies", "ravers", and other festival goers with professionalism while keeping unregistered guests out of the camp
- Ability to stand on your feet in a hot, desert environment for 4 hour shifts

Please indicate any previous experience in this area along with your qualifications. The best candidates will be able to tell us:

- Previous experience in confrontations at night clubs after 2AM
- Amount of weight he or she can bench press, preferably given in "rep" format
- Any previous private security experience with technology companies, as those are our most prominent guests, and we would like to create a familiar environment for them.

Please check out our facebook page to get an idea of the camp, and please e-mail if interested. Looking forward to working with some of you soon!
