I want to have the link prepopulate data --- so when people click on the link the referred by box is automatically filled in. ....

this is wrong...

[https://www.doordash.com/dasher/apply/?re?text\\_input=doordashcoupon%40gmail.com](https://www.doordash.com/dasher/apply/?re?text_input=doordashcoupon%40gmail.com)

but if you can figure it out.. I can pay you. \$15 dollars.
