LOST DOG: BALDWIN PARK -- Last seen 4th of July. :(

"LUPITA" is a small, female CHIHUAHUA, Tan and White, 6.2 pounds, age 9. She has neck problems, allergies, and needs anxiety medication. Because of her neck problems, she is not wearing a collar, but she is microchipped.

When she is not barking from fear, she is very affectionate. She understands English and Spanish.

Please call her heartbroken Mommy, no matter what time. My elderly Mom misses LUPITA, too. :(Our whole family is distraught, including our other doggies who miss her as much as we do.

Please help. \$\$\$ REWARD \$\$\$ Thank.
