I'm seeking a woman with nice looking feet to do some work for my website.

If you're comfortable with constant attention and promotion of your feet, let's make your feet famous :)

I've posted some example pics from my site/webpage and can show more in depth work upon request. If you have any questions don't be afraid to ask.

Serious inquiries only, please. Put "feet work" in the subject if responding by email, or text during the day for direct.
