craigslist email filter system, not through personal email, and not through the phone. This helps keeping email spam down to my personal email account and it helps keep me from wasting my time. Once we set up a time to look at the place, then personal email and/or phone numbers will be exchanged... not before then.

If you do not agree with these simple request, please don't email because you will not get a reply back. This is to help alleviate the time i spend on spam... ugh..

again, no personal emails nor phone numbers will be accepted in the first email.

thank you and have a nice day.
