This is a flex lite 119 gallon water well tank that sells for \$799.00, It is used. There is nothing wrong with it. I had trouble with my well and thought it was the tank but it was not the tank . I had purchased and installed a new tank before finding out it was not the tank that was the problem. So now I have a tank I do not need and you can buy it for \$350.00 cash or I might consider some kind of trade.
