Looking for quiet, clean, safe place to live starting in September - I would like to keep the price low (\$400-\$500) so I can manage on Social Security, although I hope to work part time. I won't be sitting around the house all day since I'll finally be able to leave sitting at a computer in an office.

I don't smoke, use drugs and only occasionally drink alcoholic beverages. I am respectful of other people's privacy - am friendly but not looking to intrude on your social life.

I have no pets but am a dog lover.

Will be happy to give more details if all of this sounds OK to you.

Please keep replies "G-Rated" or they'll get:)
