

BATHROOM COUNTERTOP DEMO (Parker)

Location

Colorado

<https://www.genclassifieds.com/x-624979-z>

I am remodeling my master bathroom in my home in the Pinery subdivision. I am looking for labor to remove the existing travertine tiled countertop and backsplash. I would prefer to have the old countertop materials removed and hauled away. The base cabinets are not to be damaged from the demo as we have already purchased a granite slab and are putting it on the cabinets. The 2 bathroom sinks and faucets will be removed by myself prior to the demo. So, your effort is totally just tear out of countertop and backsplash and haul away of materials. The total dimensions of the 3 countertop sections are as follows; 86" x 22", 50"x 22" and 57" x 22". The demo can be scheduled on any of the following days; August 22-24. You must be insured and provide evidence of such. Any damaged cabinets must be repaired or replaced. If you damage any mirrors during the demo, you must be prepared to remove all the mirrors and fix any damaged walls for the same bid.
