

Help Me Organize My Apartment (Denver)

Location **Colorado**
<https://www.genclassifieds.com/x-624984-z>

I am looking for a female who can help me organize my apartment next week, starting Monday) in the evenings until late (and I mean late). It's a mess (not dirty - but very cluttered). This person MUST be fast; creative with ideas; love to organize; be willing to clean; be able to move a couple pieces of furniture with me and boxes of books; (not anything too heavy - at least to me they're not -, but you can't have any back or other physical issues that would prevent you from doing this); speak fluent English; be able to text (I do not do VM after the initial conversation); have a car; be 100% dependable and get back to me quickly. I will be guiding the process, so you must be a good listener, but need someone who can also collaborate and come up with good ideas. I am open to good ideas! Not sure how many hours this will take. I only need ONE person who must be a female. (Gay male okay.)

Call or text only - then after we talk - text only. The deadline to have this done is the 15th of this month).
