If you're a creative problem solver, in need of some beer/ gas money, MindSumo might be the move for you.

How it works:

Outside businesses post marketing/advertising/design/conceptual roadblocks they are facing and payout on the most efficient solutions. (This isn't a phony survey company that pays you cents to take bogus surveys.) You get to pitch your custom-made solutions to legitimate businesses and potentially make a REAL impact on their business operation strategies. There really isn't any magic behind the concept....there are two ways to generate revenue through this site;

- 1)Referrals
- 2)Useful Solutions

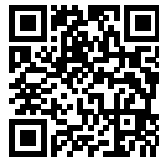

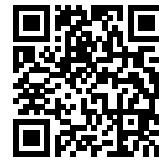

Incentives:

You earn \$150 per solution chosen by the business and honorary solutions earn an extra \$50! 3-6 winners chosen per problem. If the business likes the idea enough they can even offer you a job! This is a great way to get a foot in the door career wise. It is a genius social marketing strategy that preaches the fact that two brains are better than one.

Requirements:

You must be a college attendee or grad and sign up with your "edu"email.

If you use promo code: "JANK" and you'll earn a total of \$30 when signing up (I earn \$1 per referral). If you want to make cash on the side by performing a legitimate service, you can sign up any time at MindSumo.
