

Need Electrical Short Found in Brake Lights of 2001 Dakota (trenton)

Michigan Location https://www.genclassifieds.com/x-625234-z

Hello, I am looking for a electrical auto person who can find a short in the electrical brake lights of a 2001 dodge Dakota, I have checked fuses, replaced sensor under pedal, I have running lights, hazards, blinkers, but no brake lights, dangerous and could be fined.

I live in Trenton, work in southgate, if you can come to either city that would be great, or I can drop off at a near location.

Please contact me with to discuss further details, Thank
