ALOHA! BUYING A PRE-OWNED OR USED CAR AND WOULD LIKE TO PROPERLY INSPECT IT FOR MECHANICAL RELIABILITY AND/OR POTENTIAL PROBLEMS? GET YOUR MONEY'S WORTH, PIECE OF MIND AND \$AVE YOURSELF EXPENSIVE, UNFORESEEN REPAIR BILLS!!!

Please allow me to come with you to inspect the car you want or like before you commit to buy it. Make sure it's a good car and \$AVE YOURSELF EXPEN\$IVE REPAIR BILLS! I also do automotive consulting to help guide people through the complexities of maintenance, repair, paperwork and high-performance upgrades...

I will perform a 15+ point mechanical inspection including a full ECM (Electronic Control Module) scan using a hand-held OBD-II/OBD-E (On-Board Diagnostic) computer that can detect DTCs (Diagnostic Trouble Codes) even if the "CHECK ENGINE" or "SERVICE ENGINE SOON" light has been disabled, the odometer had been tampered with or even if the airbags have been deployed or removed. I will provide a written checklist of my findings and test drive the vehicle upon request, too...\$75 flat rate for most cars, \$90 if I perform an extensive inspection with test drive. Nominal service charge for travel outside of service area.

I can even perform a preliminary diagnosis OR second opinion scan on your car's on-board computer if the "CHECK ENGINE" or "SERVICE ENGINE SOON" light comes on...

...and I will take you to the car (make sure it's a good car and \$AVE YOURSELF EXPEN\$IVE REPAIR BILLS! I also do automotive consulting to help guide people through the complexities of maintenance, repair, paperwork and high-performance upgrades...)
