Why go Virtual at Union Plaza OffiCenter?

You can work at home and still have the support of a professional office and everything you need to run your business more effectively, on top of having an address in the ever so popular North Loop of Minneapolis! Coffee shop meetings are frustrating as they are not designed to provide you with focused and meaningful client interactions. Why not use our space or popular address?

Affordability

You buy what you want, when you need it. It just makes sense. Dollars and Cents! Our mailbox packages start as low as \$60 per month. Our most popular plan is \$79 per month and allows members unlimited access to coworking spaces! Our plans are flexible and fully customizable to fit your needs.

Collaborative Community

This is where the magic happens! Work with other successful and motivated members to make your business dreams come true. We host free networking events, promote our member's businesses in monthly newsletters, weekly email blasts featuring community happenings, and electronic billboards in all locations. Our members share ideas, ask and answer questions, share talents, tag team on projects and we even have members who form partnerships and companies with other members. These are the moments that create a Work Awesome environment.

Call Ana or Megan at to set up your tour.
